

Dear BaySide,

My name is Sean Wallick, and I am interested in applying to your agency for opportunities in background modeling work. Although I don't have prior modeling experience, I would be very interested in exploring this field, trying something different, and finding more opportunities here in Japan. I'm flexible, easygoing, and a quick learner who takes direction well.

A good friend of mine, Travis Filoni, who has worked through your agency, referred me and recommended I apply.

I am physically active and can skateboard at a high level. I also can surf and participate in various sports, which could be beneficial for roles requiring physical activities.

Thank you for your consideration. I look forward to the possibility of working together.

Best regards,

Sean Wallick
